

INDEXA

For over 38 years, an all-volunteer staff of officers and directors from several continents have given their time and expertise to the advancement of the art of DXing!

Thoughtful and careful screening of literally dozens of annual requests from DXpedition teams for funding have resulted in only the rarest, best organized and managed DXpeditions being supported.

DXPEDITION REQUIREMENTS

(Part of the requirements for INDEXA's support)

1. DX entity to be activated must be in the Top 60 of Club Log's Most-Wanted List.
2. Individual team members must make a substantial personal contribution to the project.
3. INDEXA believes that funds contributed to a DXpedition should be used only for that purpose.
4. DXpedition must upload their logs to Logbook of the World (LoTW) within six months after the DXpedition concludes.
5. DXpedition team members must be required to review and understand information found in the booklet "DXpeditioning Basics" written by Wayne Mills, N7NG. (on website)
6. Good operating practices and operating ethics are required for INDEXA support.

INDEXA remains committed to promoting the highest ethical operating standards within the worldwide DX community.

INDEXA supports only those DXpeditions that meet strict criteria and commit to meeting the objectives set out in their applications.

"Let us enjoy our hobby and work together to keep DX relevant and strong."

Wouldn't you like to not only work DX but be an important part of what makes DX possible?

INDEXA

***Helping make DX happen
since 1983***

A non-profit organization for the advancement of amateur radio DXpeditioning and International friendship and goodwill.

ABOUT INDEXA

INDEXA

INDEXA

Provides financial support for DXpeditions to some of the rarest DXCC countries.

Provides experienced leadership through an all-volunteer staff.

Provides strict requirements to DXpedition organizers to maximize results.

Provides and utilizes strict criteria when analyzing applications for support.

Promotes goodwill among amateur radio operators all over the world.

Supports and abides by amateur radio rules and regulations set forth by the FCC and other governing bodies.

Provides optional support to DXpeditions with a pre-approved humanitarian assistance element.

Promotes and supports DX operations in countries that have limited or no amateur radio activity.

Provides a quarterly newsletter for INDEXA members with first hand reports of sponsored DXpeditions.

Provides special reports or bulletins when appropriate.

Over the past 38 years INDEXA has supported DXpeditions to over 235 rare and semi-rare countries including support to these recent and pending operations:
